USB-C CHARGING

The Mactronic Vizo RC is a headlamp that combines modern technology with a durable housing. It emits an elliptical beam of diffused light with a beam distance of up to 100 meters. In Boost mode, it delivers 750 lumens, while in High mode (400 lumens) it runs for up to 14 hours and 20 minutes—providing long-lasting illumination during extended runs, hikes, or night treks. A red signal light on the battery pack enhances safety after dark. The 2800 mAh Li-Ion battery can be detached and carried in a backpack using the extension cable. The headlamp is rechargeable via a USB-C port. It features an IP64 rating and 2-meter impact resistance.
